

Environmental, Health & Safety (EHS) Policy

Mission

Jurong Port is a multipurpose port operator that provides facilities and services to the shipping and logistics industry. Jurong Port aims to provide an Environmentally-Friendly, Healthy and Safe Workplace.

Vision

We are committed to put in place a strong safety management programme that protects the environmental, health and safety of all stakeholders (staff, contractors, tenants, lessees, visitors and port community operating within Jurong Port) from risk of harm, including that arising from terrorism.

Policy Objectives

Jurong Port management is committed to achieving EHS excellence and an incident-free workplace through:

- **Compliance** with all applicable EHS legislation and other requirements.
- **Competency building** through comprehensive training and robust work processes.
- **Cultural** promotion through EHS programs and initiatives to continually improve EHS performance.
- **Communication** at all levels to enhance effectiveness of Compliance, Competency Building and Cultural Promotion.

Think Safe, Work Safe, Home Safe
