

No.97 of 2021

02 December 2021

SAFETY FOOTWEAR REQUIREMENT WITHIN ALL JP'S PREMISES AT OPERATION AREAS

1. There has been an increase in the number of accidents in JP's premises involving the usage of low-cut safety shoes. In most cases, port users were wearing the low-cut safety shoes as slipped-on sandals.
2. This circular aims to improve the safety of all port users in JP's premises at the operational areas. The use of low-cut safety shoes will be **prohibited** for operations such as while operating machineries and handling cargoes in the yards, warehouses, wharf areas and on vessels & barges.
3. Port users may select the type of designs (mid / high cut, zipper / lace / elastic type) in accordance with the SS513 – Specification for Personal Protective Equipment (Footwear).
4. Port users with medical condition(s) that restrict them from wearing mid or high cut safety footwear will need to submit their medical report to jpfss@jp.com.sg.
5. This safety requirement will take effect from 1st April 2022 to allow port users sufficient time to replace their existing low-cut safety shoes. Reminders will be given for any non-compliance during the first month of implementation. Notice of Infringement will be issued from **1st May 2022** onwards.
6. For further clarifications and enquiries, please contact the WSH department at jpfss@jp.com.sg.
